LABORER II

DISTINGUISHING FEATURES OF THE CLASS: This position involves the performance of moderately skilled manual labor and the use of power tools, indoors and outdoors, in a group and alone. It requires heavy lifting, physical endurance and the ability to perform physically demanding tasks. Work is usually performed under the general direction of a supervisor although the incumbent may be assigned to complete recurring tasks without supervision and is expected to accomplish tasks as directed. Upon completion of assigned tasks, the incumbent is to report to a supervisor for further directives. Supervision may be exercised over small groups of employees performing manual tasks while the incumbent participates in the work performed. This position involves the assistance in the installation, construction, maintenance and repair of streets, water, drainage and sewer systems. This work includes digging and backfilling trenches and excavations with pick and shovel, patching holes with asphalt, adding sand, stone and cement to mixing machines, sealing cracks, lifting and carrying 50-pound bags of concrete, lifting and loading pieces of broken concrete slabs weighing from 10 to 75 pounds and placing them into a wheel barrow or bucket loader.
