

## **PAINTER II**

**DISTINGUISHING FEATURES OF THE CLASS:** This is skilled work, at the journeyman level, in the painting of buildings, fixtures, and equipment. Work involves the preparation of surfaces and materials, and requires individual skilled performance in accordance with standard trade practices. Work may involve the use of scaffolding. Employees receive assignments orally or through written job orders, and work is inspected by a supervisor while work is in process or upon completion. Painter II differs from the position of Painter because the Painter II may be required to lead as well as participate. In addition, the Painter II requires a greater degree of difficulty and more experience.
